

Java

Name : A K Selva Prabhu

Regno. : 192421224

Course Code : CSA0904

1. Employee Name List (ArrayList)

```
import java.util.ArrayList;

public class Main {

    public static void main(String[] args) {

        ArrayList<String> employees = new ArrayList<>();

        employees.add("Ramesh");
        employees.add("Suresh");
        employees.add("Priya");
        employees.add("Anu");
        employees.add("Karthik");

        System.out.println("Employee Names:");

        for(String name : employees) {
            System.out.println(name);
        }
    }
}
```

2. Restaurant Order Management (ArrayList)

```
import java.util.ArrayList;

public class Main {

    public static void main(String[] args) {

        ArrayList<String> order = new ArrayList<>();

        order.add("Dosa");
        order.add("Idli");
        order.add("Pongal");
        order.add("Coffee");

        order.remove("Pongal");

        System.out.println("Updated Order List:");

        for(String item : order) {
            System.out.println(item);
        }

        System.out.println("Total Items = " + order.size());
    }
}
```

3. Online Course Enrollment (ArrayList)

```
import java.util.ArrayList;
```

```
public class Main {  
    public static void main(String[] args) {  
  
        ArrayList<String> students = new ArrayList<>();  
  
        students.add("Arun");  
        students.add("Meena");  
        students.add("Priya");  
        students.add("Karthik");  
        students.add("Anu");  
  
        if(students.contains("Meena")) {  
            System.out.println("Enrolled");  
        }  
        else {  
            System.out.println("Not Enrolled");  
        }  
    }  
}
```

4. Unique Email Registration (HashSet)

```
import java.util.HashSet;  
  
public class Main {  
    public static void main(String[] args) {  
  
        HashSet<String> emails = new HashSet<>();
```

```
emails.add("a@gmail.com");
emails.add("b@gmail.com");
emails.add("a@gmail.com");
emails.add("c@gmail.com");

System.out.println("Unique Email Addresses:");

for(String email : emails) {
    System.out.println(email);
}

System.out.println("Total Unique Users = " + emails.size());
}
}
```

5. Library Book ID Tracking (HashSet)

```
import java.util.HashSet;

public class Main {
    public static void main(String[] args) {

        HashSet<Integer> books = new HashSet<>();

        int ids[] = {101, 102, 103, 101, 104};

        for(int id : ids) {
            if(books.add(id)) {
                System.out.println("Book ID Added: " + id);
            }
        }
    }
}
```

```
    }  
    else {  
        System.out.println("Duplicate Book ID Found");  
    }  
}  
  
System.out.println("Unique Book IDs:");  
  
for(int id : books) {  
    System.out.println(id);  
}  
}  
}
```
